FOR EMPLOYERS

Healthcare that keeps your team healthy.

Your employees shouldn't have to hesitate before seeing a doctor.

Healthspan Direct Primary Care (DPC) removes the barriers that keep people from getting care early – such as copays, deductibles, and surprise bills.

With one simple monthly membership, your team gets real access to their provider, including same- or next-day visits, direct communication and comprehensive care close to home. When care is easy to access, people use it sooner. That is healthcare.

If you offer health insurance:

Pairing Healthspan DPC with a high-deductible health plan allows you to:

- Provide unlimited primary care access
- Reduce unnecessary ER and urgent care visits
- Lower overall claims exposure
- Keep insurance for major medical needs

Insurance is for emergencies. Healthcare is for staying well.

If you don't offer traditional insurance:

We provide an affordable healthcare solution for small businesses.

- Flat, predictable monthly fee per employee
- Unlimited office visits and virtual care
- Direct communication with a dedicated provider
- No complex paperwork or administrative burden

Offer real access to care without the cost of a full group plan.

Transparent pricing. No surprises.

Plans start at $80/person, plus discounts on medications and labs.

Contact us to build a Healthspan DPC solution for your team.

Unlimited access to a dedicated care team.
